Asset License

Copyright © 2025 JDSherbert.
All rights reserved.

Thank you for downloading these assets! By downloading or buying them, you agree to the terms below.
This license applies to any official assets created by me, no matter where they are distributed from.

WHAT YOU CAN DO	• You can use these assets in any project, including free or commercial work such as games, films, apps, or videos. • You can edit, remix, or change the assets to fit your project. • You can sell or share your finished project that includes these assets. • You don't owe me any royalties or extra payments.
WHAT YOU CAN'T DO	• You can't resell, redistribute, or share the raw files, even if you've modified them. • You can't include these assets in another asset pack, template, or tool where others can grab them directly. • You can't claim the assets as your own original creation.
CREDIT	• You must credit me somewhere visible in your project (credits, description, or readme). • A link to where you got the assets from is nice but not required. • Example: "Sounds by JDSherbert – https://jdsherbert.itch.io"
AI / MACHINE LEARNING USE	• These assets cannot be used to train AI models or datasets unless you have my written permission.
OWNERSHIP AND LIABILITY	• I still own the copyright to these assets. • You are granted permission to use them under these terms only. • The assets are provided "as-is" without any warranty or guarantee.
PORTFOLIO USE	• I may feature your project, screenshots, video clips, or links to your work that use my assets in my portfolio, on my website, or on social media. • This is only to showcase how the assets are used — I will always credit your project appropriately and will never otherwise claim ownership or endorsement.
